SUPPLYWAYS HAND SANITIZER

- 70% Isopropyl alcohol
- Gel formula
- 4 oz / 118mL per bottle
- 16 bottles per case
- Kills 99.99% of germs
- Dye and fragrance free

DID YOU KNOW?

The World Health Organization recommends that public and private buildings offer one or several sanitizing stations to use before entering and when leaving, to ensure everyone is practicing good hand hygiene.¹

- Remember to use enough gel to wet your hands thoroughly.
- Rub briskly until dry; don't forget your fingertips, thumbs, and in between your fingers.
- This should take around 15-20 seconds with a well-formulated sanitizing product.
