Entry Level Printing to High Graphic Logo Barcode Capabilities

## INK CODERS

- Eliminate label material costs.
- Eliminate repetitive movement to increase operator safety.
- Capable of printing on any substrate, including corrugated cases or ceramics.
- Programmable or auto-generating variable data capabilities.

Table-Top to Integrated Inline Solutions

## LABELERS

- Available in automatic, semi-automatic and rotary options for tabletop/desktop applications and more complex in-line solutions.
- Preprinted decorative labels or print and apply labeling options.
- Eliminate repetitive movement to increase operator safety.

Table-Top to Integrated Inline Solutions

## BAGGERS

- Increase productivity 5-6x compared to tabletop flat bag sealers.
- Eliminate repetitive movement to increase operator safety.
- Quick changeover on standard units.
- Ability to be hand packed or automatic cycle.
- Favorable ROI starting at 300 units per day.

### WE ALSO HAVE CONSUMABLES!

Now that we have your attention on our many equipment options to help move your facility in the right direction, let's talk consumables.

We have all the materials you need to run the machines that are shown here, **IN STOCK**.

# CASE ERECTORS

*Stand Alone to High Speed Fully Integrated Inline Systems*

- Erect and seal up to 10x faster than by hand offering huge labor savings.
- Reduces waste by eliminating double taping and extended tape legs.
- Clean presentable look with consistently square case corners.
- Eliminate repetitive movement to increase operator safety.
- Favorable ROI starting at 2,000 cases per day.

# FLOW WRAPPER

*Stand Alone to High Speed Fully Integrated Inline Systems*

- Can be utilized for primary or secondary packaging.
- Clear or printed registered film capabilities.
- Increases throughput capabilities, reducing labor costs.
- Favorable ROI starting at 2,000 units per day.

# SHRINK FILM EQUIPMENT

*Entry Level Units to High Speed Fully Integrated Inline Systems*

- Bundling and enclosed film capabilities.
- Increases throughput capabilities, reducing labor costs.
- Tamper evident.
- Reduce other packaging consumable costs.
- Increased product protection.
- Favorable ROI starting at 100 units per day.

# CASE SEALERS

*Stand Alone to High Speed Fully Integrated Inline Systems*

- Seal Cases up to 10x faster than by hand.
- Reduces waste by eliminating double taping and extended tape legs.
- Clean presentable look, ready for retail applications.
- Eliminate repetitive movement to increase operator safety.
- Favorable ROI starting at 250 cases per day.

# STRETCH WRAPPERS

*Semi-Automatic to Integrated Inline Automatic Systems*

- Reduces shipping damage through proper film pre-stretch and tensioning, creating reliable and repeatable load containment.
- Pre-stretch rollers maximize film usage for 3x-5x additional film yield.
- Eliminate repetitive movement to increase operator safety.
- Increases throughput capabilities, reducing labor costs.
- Favorable ROI starting at 10 pallets per day.

---

# STRAPPING MACHINES

*Semi-Automatic to Integrated Inline Automatic Systems*

- Increase throughput up to 3x compared to hand tools, reducing labor costs.
- Quality control ensure proper tensioning for consistent load containment.
- Eliminate repetitive movement to increase operator safety.
- Minimize strapping waste.
- Keeps reusable containers secured and closed while in transport.
- Used on barrier coated or waxed boxes where adhesive tape will not stick.

# FACTORY TRAINED TECHNICIANS

Watch Equipment Service Video  
<http://wcp.link/equipment-service>

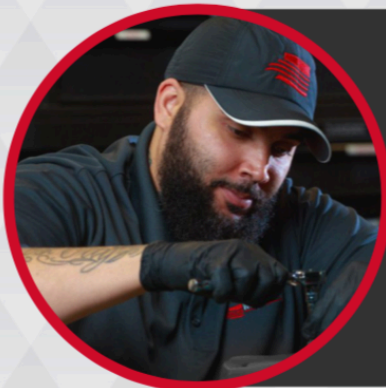

## INSTALLATION

At WCP we offer product installation for both complex and straightforward equipment systems. Our in house team of certified technicians follow manufacturer requirements so everything meets the strict installation guidelines set forth by our equipment partners.

## MAINTENANCE

With preventative maintenance agreements, our certified technicians reserve a spot on the calendar for your machine and answer any of your questions. During your maintenance appointment, our technicians inspect the equipment, clean it up, and make sure everything is running as efficiently as possible.

## WARRANTY

If something goes wrong, our technicians are here to help. We'll do what we can do to get you back to work and running as fast as we can. We work with our equipment partners to offer both warranty and emergency repair services.

VU 500

## VACUUMS

- Advanced filtration captures unhealthy particles improving indoor air quality.
- Available in back pack, canister and upright models.
- Additional tool kits for dusting can further reduce cleaning times and overall labor costs.
- Cleaning paths from 12" – 30".

ProBlitz

## AIR MOVERS

- Improve air circulation with air movers.
- Dry carpets and floors faster to reduce drying time and overall labor costs.
- Portable for use where needed.
- Use for multiple applications and surface types.

ES4000

## EXTRACTORS

- Extend the life of your carpet by removing dirt, grease and grime.
- Dual technology equipment offers efficient interim cleaning and deep extraction to extend your budget dollars.
- Clean with or without chemicals.
- Available in portable units for spot cleaning or 15" – 28" cleaning widths.

TERRA 28B

## SWEEPERS

- Remove large and small debris as well as dust in just one pass.
- Reduce labor in large areas by sweeping up to 15x faster than a manual method.
- Multipurpose machines work well indoors and outdoors, hard floors or carpet offering extra value for your budget dollars.
- Use manual sweepers where noise is an issue and vacuuming isn't an option.

## NOBLES SCOUT SERIES SWEEPERS

Scout 6

Scout 7

# AUTO SCRUBBERS

- Extend the life of your floors by removing more dirt, grease and grime.
- Reduce labor by cleaning up to 4x faster than traditional manual methods.
- Improve your environmental foot print by using less water and less chemicals.
- Floors are left drier reducing the risk of a slip and fall injury.
- Available with 14" – 32" cleaning paths for a variety of cleaning needs.

SC500

# BURNISHERS

- Extend the life of your floor finish by adding burnishing to your maintenance protocols.
- Make daily cleaning faster by reducing the nicks and scratches in your floor finish that dirt and grime gets trapped in.
- Strip floor finish quickly with or without chemicals.
- Available with 13" – 27" cleaning paths to work in any space.

FM-20
