COLD & FLU GOT YOU DOWN?

The 2017-2018 flu season is reaching moderately severe levels in almost all 50 states. This season the flu vaccine is less effective against the predominate H3N2 strain. According to the CDC the most effective thing you can do to protect yourself, besides the flu shot, is wash your hands regularly with soap and water and use alcohol based hand sanitizer.

Protect your business from absenteeism and keep your employees healthy by ensuring they have the right products to prevent the spread of germs!

Cover your cough & sneeze!
