W440907	3-6-12 XL Trays - BULK - Pallet Only		704/PLT

C. PULP WINE TRAY FOR 6 & 12 UPRIGHT BOTTLE SHIPPERS

Designed and tested to provide optimum shock-absorbing protection, both shippers have repeatedly met the high standards of both FedEx and UPS test labs. For pack-out efficiency, the three-part design provides ease of handling, quick bottle loading and simple inspection for shipment verification. For versatility, both the 6 Bottle Half Case and the 12 Bottle Case Shippers accommodate a full range of bottle shapes.

6 Bottle Shipper Set

CAN SHIPPERS

The most versatile direct-to-consumer fulfillment shipper. The D2C shippers are designed to meet the needs of today's high-volume fulfillment market.

- Shippers separate easily, saving labor
- Protects diverse product and container shapes
- Smooth finish, clean edges enhance the presentation

This new design offers the best balance in versatility, economy, performance, and sustainability.

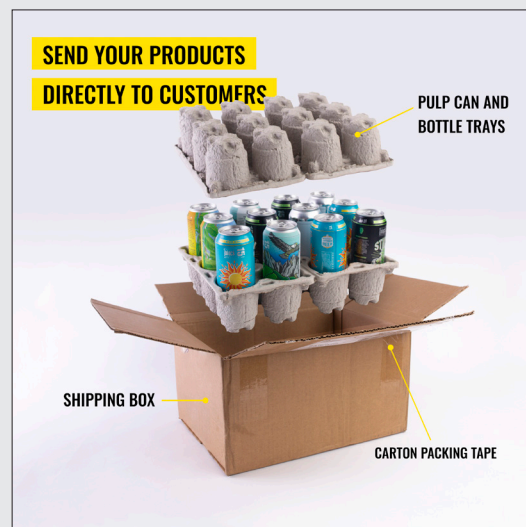

Low-cost protection. Tested and proven. D2C shippers perform well in the test labs and in the field. Impact absorbing geometries are designed to withstand the hazards of today's distribution environment. This line of molded fiber shippers have repeatedly met the high standards required by FedEx, UPS, and ISTA test labs.

BOTTLE TOP SHIPPERS (USES CAN TRAY BOTTOMS)

The new D2C Beverage Bottle Top Shipper is designed as a companion part to our Beverage Can Shipper. Designed to fit common and refillable:

- 12oz./355ml long neck bottles,
- 16.9oz./500ml bottles and
- Single serving 187ml sparkling wine bottles.

Now bottles of Craft Beer, Ciders, Alternative non-alcoholic drinks and "splits" of sparkling wine can be safely shipped using a Beverage Can Shipper for the bottom in combination with the new D2C Beverage Bottle Top Shipper.

LABELING MACHINES

A. SH435 LABEL APPLICATOR

TACH-IT

- Economical Semi-Automatic Label Applicator for Bottles and Cylindrical Products.
- A simple push of the button on the front of the machine applies a label smoothly and consistently to a bottle or round product.
- Lightweight and portable.
- Perfect for lower productivity bottling stations and also as a back-up unit to fully automatic systems.
- Heavy duty construction and product fixture for consistent label placement.
- Small bench top design.
- Easy to load and use and requires no operator training or special tools for label changeovers.

B. LB7 LABEL APPLICATOR

TACH-IT

- Semi-Automatic Label Applicator for Bottles and Cylindrical Products.
- Simply put the container to be labeled into the machine and push down on the overhead pressure roller. Label is applied smoothly and consistently.
- Large range of products including most gallon drums.
- Perfect for micro-breweries, wineries, jams and jellies and for users who cannot justify the cost of a fully automated in-line label applicator.
- Small table top design.
- Easy to load and use without special training or tools.
- Heavy duty construction and adjustable product fixture and cradle for various diameter products.
- Flexible enough to label products as small as lip balm all the way up to a gallon container.

C. LB2 LABEL APPLICATOR

TACH-IT

- Premium Semi-Automatic Label Applicator for bottles and cylindrical products.
- Simply put container to be labeled into the machine and press the foot pedal and a label is applied smoothly and consistently.
- Powered overhead pressure roller adheres label to the container.
- Heavy duty construction and product fixtures for consistent label placement.
- Can apply 1 label or a front and back label (must be alternating on label web).
- Perfect for micro-breweries, wineries, jams and jellies, perfumes and cosmetics, medical and for users who cannot justify an automated in-line labeling system.
- Adjustable product cradle accommodates various diameter products.
- Small bench top design.
- Built for 24/7/365 production.
- Easy to load, no special training or tools needed.

SUPPLYWAYS

Features:

- High slide angle
- Coated 2 sides
- FDA approved
- Manufactured in North America
- 100% Recyclable and Repulpable

Advantages:

- Stabilizes products during transport and storage
- Prevents slippage and protects products
- Reduces damage and accidents

Common Uses:

- Slip sheets for palletized loads
- Widely used for club store shipments
- Shipping cartons with slick or smooth surfaces
- Stabilize sacks, oversized tote bags, bottles and cans

EQUIPMENT

BREWPACK JR. CARTONER by Switchback

- Intermittent motion cartoner
- 4, 6, 8, 9, 12, 15, 18, and 24 pack capable
- Up to 25 cartons per minute
- Photo Eye
- Hot Melt glue system (Nordson or ITW)

TRAYFORMER by Switchback

- Corrugated glue style trayformer for can trays
- Up to 12 trays per minute
- Tooling designed specific to tray
- Photo Eye
- Hot Melt glue system (Nordson or ITW)

STRETCH WRAPPER by Wulftec

The SML-150 model, a standard base low-profile turntable as the ideal stretch wrapping solution for your unique needs. Low-profile octagonal base design stretch wrapper. Ideal for small footprint.

- Load by forklift or pallet jack
- 4000-6000 lb. capacity
- 5 year parts warranty
- Automatic up and down cycle

SML-150

GLUE CASE SEALER by BEL

- Size - Compact machine footprint for applications with limited floor space
- Snap Folder System - for safe reliable top flap folding
- Centralized, color-coded setup guides - make case changeovers quick and easy
- Uni-Drive Belt System - eliminates case skew and ensures cases are squarely taped

BEL-270

ENDALINE EX-1 CAN CODER

- Rich external interfaces can communicate with external devices freely
- Powered by Cortex-A9 quad core CPU
- Integrated with HP Genuine inkjet engine
- Support blue-tooth 4.0/ Wi-Fi connection. System firmware can be upgraded remotely
- 4.5 inch high definition display screen - quality interface experience
- Support printing bar code/ QR code/ text. Much less printing cost with quality results

FLOOR SCALE by Brecknell

Up to 1/4" thick top with heavy-duty welded channel support. Legal for Trade. NTEP certified at 5,000 divisions. Pit mounted or free-standing. Four alloy tool steel potted load cells. Powder coat paint finish. Low profile: 3-1/10" high using 1-3/4" adjustable leveling feet. Ramps optional.

ECO CAN RING

The E6PR™ (Eco Six Pack Ring) is the first can ring made from compostable materials and by-product waste, making it a genuinely eco-first solution. Say goodbye to plastic rings, which are truly damaging to our environment!

When disposed of properly at a composting facility, the E6PR™ will degrade in days. When discarded and left out in open land or a water system, it will degrade in a matter of weeks¹. The compostable organic materials that make up the E6PR™ products are wildlife-friendly, causing no harm if accidentally consumed and digested.

The E6PR™ 6 and 4 pack rings are just the beginning of what should become a movement to rid the packaging industry of plastic!

Manual Applicator

Simple, efficient and inexpensive with speeds up to 60 cans per minute

Mid-Speed Electric Applicator

Speeds up to 180 cans per minute

High Speed Applicator

Speeds up to 1200 cans per minute

Product Characteristics

- Material: Straw from natural fibers
- Color: Unbleached (Brown/Kraft)
- Odor: None
- Temperature resistance: up to 93 °C

Made from compostable organic materials that do not cause harm to wildlife in case of ingestion.

CAN TRAYS

B. CAN TRAYS

- Holds cans of 12oz or 16oz.
- Fitted to hold four 6-packs or six 4-packs with little to no movement
- 32 ECT B-Flute

W12CANTRAY	12 Can Capacity	10-7/16" X 7-11/16" X 4"	1170/PL
W24CANTRAY	24 Can Capacity	15-3/8" X 10-7/8" X 2-15/16"	2340/PLT

Thinking of automating....

The BGF-12 is designed specifically for craft brewing tray forming requirements. By reducing hand-erected tray sizes, and reducing labor costs at a very cost effective price, the BGF-12 can help any brewery or similar industry automate their operation of erecting corrugated trays. With a small footprint the BGF-12 will fit in almost any floor space, and the integral casters allow for easy removal when not in use.
