PROPERTY OF:

SUPER IMPORTANT NOTES:

ACCOUNT MANAGER CONTACT:

D2C FULFILLMENT SHIPPERS

CAN SHIPPERS

The most versatile direct-to-consumer fulfillment shipper. The D2C shippers are designed to meet the needs of today's high-volume fulfillment market.

- Shippers separate easily, saving labor
- Protects diverse product and container shapes
- Smooth finish, clean edges enhance the presentation

This new design offers the best balance in versatility, economy, performance, and sustainability.

Low-cost protection. Tested and proven. D2C shippers perform well in the test labs and in the field. Impact absorbing geometries are designed to withstand the hazards of today's distribution environment. This line of molded fiber shippers have repeatedly met the high standards required by FedEx, UPS, and ISTA test labs.

Cut tray in half for 6 can configuration

BOTTLE TOP SHIPPERS (USES CAN TRAY BOTTOMS)

The new D2C Beverage Bottle Top Shipper is designed as a companion part to our Beverage Can Shipper. Designed to fit common and refillable:

- 12oz./355ml long neck bottles,
- 16.9oz./500ml bottles and
- Single serving 187ml sparkling wine bottles.

Now bottles of Craft Beer, Ciders, Alternative non-alcoholic drinks and "splits" of sparkling wine can be safely shipped using a Beverage Can Shipper for the bottom in combination with the new D2C Beverage Bottle Top Shipper.

C. PULP WINE TRAY FOR 6 & 12 UPRIGHT BOTTLE SHIPPERS

Designed and tested to provide optimum shock-absorbing protection, both shippers have repeatedly met the high standards of both FedEx and UPS test labs. For pack-out efficiency, the three-part design provides ease of handling, quick bottle loading and simple inspection for shipment verification. For versatility, both the 6 Bottle Half Case and the 12 Bottle Case Shippers accommodate a full range of bottle shapes.

LABELING MACHINES

B. SH435 LABEL APPLICATOR

TACH-IT

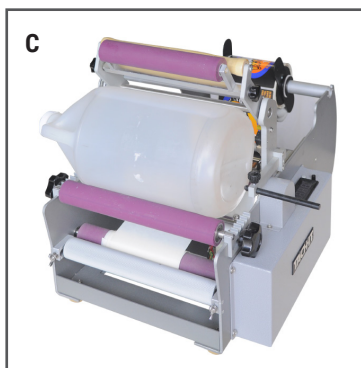

- Economical Semi-Automatic Label Applicator for Bottles and Cylindrical Products.
- A simple push of the button on the front of the machine applies a label smoothly and consistently to a bottle or round product.
- Lightweight and portable.
- Perfect for lower productivity bottling stations and also as a back-up unit to fully automatic systems.
- Heavy duty construction and product fixture for consistent label placement.
- Small bench top design.
- Easy to load and use and requires no operator training or special tools for label changeovers.

C. LB7 LABEL APPLICATOR

TACH-IT

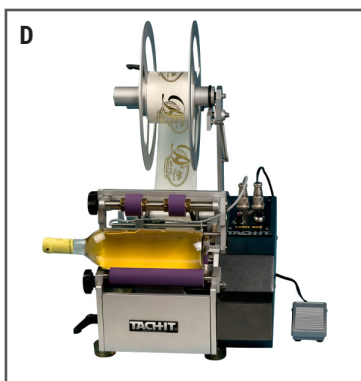

- Semi-Automatic Label Applicator for Bottles and Cylindrical Products.
- Simply put the container to be labeled into the machine and push down on the overhead pressure roller. Label is applied smoothly and consistently.
- Large range of products including most gallon drums.
- Perfect for micro-breweries, wineries, jams and jellies and for users who cannot justify the cost of a fully automated in-line label applicator.
- Small table top design.
- Easy to load and use without special training or tools.
- Heavy duty construction and adjustable product fixture and cradle for various diameter products.
- Flexible enough to label products as small as lip balm all the way up to a gallon container.

D. LB2 LABEL APPLICATOR

TACH-IT

- Premium Semi-Automatic Label Applicator for bottles and cylindrical products.
- Simply put container to be labeled into the machine and press the foot pedal and a label is applied smoothly and consistently.
- Powered overhead pressure roller adheres label to the container.
- Heavy duty construction and product fixtures for consistent label placement.
- Can apply 1 label or a front and back label (must be alternating on label web).
- Perfect for micro-breweries, wineries, jams and jellies, perfumes and cosmetics, medical and for users who cannot justify an automated in-line labeling system.
- Adjustable product cradle accommodates various diameter products.
- Small bench top design.
- Built for 24/7/365 production.
- Easy to load, no special training or tools needed.

D - E**VANISH STRETCH FILM****E. VANISH STRETCH FILM**

Vanish is a state-of-the-art stretch film designed to bio-assimilate beginning 2 years after production. Bio-assimilation is the process of turning something (stretch film) into a renewable material-a food source for a multitude of micro-organisms. And the amazing part is that the total bio-assimilation process does not require any special conditions such as oxygen or sunlight.

SUPPLYWAYS

Features:

- High slide angle
- Coated 2 sides
- FDA approved
- Manufactured in North America
- 100% Recyclable and Repulpable

Scan with your phone camera or visit
<https://wcp.link/antislip> for a quick
video on how this product works.

Advantages:

- Stabilizes products during transport and storage
- Prevents slippage and protects products
- Reduces damage and accidents

Common Uses:

- Slip sheets for palletized loads
- Widely used for club store shipments
- Shipping cartons with slick or smooth surfaces
- Stabilize sacks, oversized tote bags, bottles and cans

KEG COLLARS, WRAPS & LABELS

COLLARS

KEG COLLARS

- 2 paper options available; 100# Titan Gloss Cover and 130# Titan Gloss Cover
- Minimum order quantity 500 pieces
- Quantities can be combined for different prints on the same paper substrate to get pricing breaks. There will be a \$5 art change over fee per design
- Print includes up to 4-color digital process print
- Samples upon request

LABELS & WRAPS

CRAFT BEVERAGE LABELS

Stand out on the shelf, build your brand and take advantage of a unique way to promote your products. From simple, one-color labels, to intricate, foil embossed, variable data and kraft labels, we can do it all!

- Low Order Minimums
- Labels able to withstand cooler and freezer environment
- Barcode & Consecutive Number Labels
- Foil & Embossed Labels
- AnyShape® Labels
- Premium Process Color Labels

EQUIPMENT

BREWPACK JR. CARTONER by Switchback

- Intermittent motion cartoner
- 4, 6, 8, 9, 12, 15, 18, and 24 pack capable
- Up to 25 cartons per minute
- Photo Eye
- Hot Melt glue system (Nordson or ITW)

TRAYFORMER by Switchback

- Corrugated glue style trayformer for can trays
- Up to 12 trays per minute
- Tooling designed specific to tray
- Photo Eye
- Hot Melt glue system (Nordson or ITW)

STRETCH WRAPPER by Lantech

Load Guardian is Lantech's patented control system that creates, maintains and delivers the right containment force for safe-to-ship loads every time.

- Pallet Grip®
- Auto Film Cut-Off
- Power Roller Stretch Plus
- NEMA Type 1 Enclosure
- 5,000LB Weight Capacity and 1HP Turntable Drive Motor

QL-400

GLUE CASE SEALER by BEL

- Size - Compact machine footprint for applications with limited floor space
- Snap Folder System - for safe reliable top flap folding
- Centralized, color-coded setup guides - make case changeovers quick and easy
- Uni-Drive Belt System - eliminates case skew and ensures cases are squarely taped

BEL-270

SQUID INK HI-RES PRINTING SYSTEMS

- Piezo impulse printhead technology
- Porous or Non-Porous surfaces
- 0.7" print height per printhead

Shrink Sleeve Label and Tamper Evident Band Applicator

- Round cylindrical mandrel
- Round Cutter
- Single round 400 mm timing screw
- Photo eye for registered cutting
- Label brush down device
- Dual roll unwind system and tension control

EB25A

Automatic Bundler

EASTEY automatic bundler provides you with all the quality features found in much higher priced machines. EB25A is designed and built to give you all the features needed for positive sealing a wide variety of films including polyolefin, polyethylene, and PVC. EASTEY'S automatic bundlers are expertly welded on ¼" cold rolled steel frames and designed to handle the day to day abuse of most bundling applications. Each bundler utilizes two rolls of single wound film mounted on the same side of the machine and upper and lower power film unwind for ease of use.

GEN-S TUNNEL

Shrink Sleeve Label and Tamper Evident Band Applicator

The WSN-GEN S Steam Heat Tunnel for shrink sleeve label and tamper evident band applications from American Film & Machinery is designed for middle, full body, and full body and cap shrink applications. The WSN-GEN S is an all-in-one tunnel that includes its own steam generator. The tunnel is a perfect addition to shrink labeling lines in manufactured goods industries including food and beverage, pharmaceutical, nutraceutical, health and beauty, consumer goods, and chemical products.

PAKTECH CAN CARRIERS

- Simple, Innovative Design
- Over 30 Colors to Complement your Beverage Art
- Covered Tops Keep Cans Clean
- Easy to Apply
- Sustainable Solution

- Self-Nesting Pallet Design - No Trays or Shrink Wrap
- 100% Recycled
- 100% Post-Consumer Recycled
- Repurposed from HDPE Milk Jugs

ECO CAN RING

The E6PR™ (Eco Six Pack Ring) is the first can ring made from compostable materials and by-product waste, making it a genuinely eco-first solution. Say goodbye to plastic rings, which are truly damaging to our environment!

When disposed of properly at a composting facility, the E6PR™ will degrade in days. When discarded and left out in open land or a water system, it will degrade in a matter of weeks¹. The compostable organic materials that make up the E6PR™ products are wildlife-friendly, causing no harm if accidentally consumed and digested.

The E6PR™ 6 and 4 pack rings are just the beginning of what should become a movement to rid the packaging industry of plastic!

Manual Applicator

Simple, efficient and inexpensive with speeds up to 60 cans per minute

Mid-Speed Electric Applicator

Speeds up to 100 cans per minute

High Speed Applicator

Speeds up to 1200 cans per minute

Product Characteristics

- Material: Straw from natural fibers
- Color: Unbleached (Brown/Kraft)
- Odor: None
- Temperature resistance: up to 93 °C

Made from compostable organic materials that do not cause harm to wildlife in case of ingestion.
