

3M SCOTCH-BRITE STAINLESS STEEL WIPES WITH SCOTCHGARD PROTECTOR

Scotch-Brite Stainless Steel Wipes with Scotchgard Protector are designed to clean, protect, and maintain stainless steel surfaces in commercial kitchens, foodservice operations, and other high touch environments. These ready to use, pre moistened wipes quickly remove grease, fingerprints, smudges, and everyday soils while leaving behind a protective Scotchgard coating that helps keep surfaces cleaner between cleanings.

The one step formula requires no mixing, dilution, or rinsing, making routine maintenance faster and more convenient. With regular use, the protective coating helps reduce grease buildup and makes future cleaning easier, helping improve productivity and maintain a clean professional appearance on stainless steel equipment and surfaces.

- **One Step Cleaning** - Cleans and protects in a single wipe
- **Scotchgard Protection** - Helps reduce future grease buildup
- **Ready to Use** - No mixing, dilution, or rinsing required
- **Commercial Use** - Ideal for stainless steel surfaces
- **Certified** - NSF and HACCP International certified
